

CHILD FIND

The School Board recognizes the responsibility of the district to identify children residing in the district who need special education and related services. As required by law, the Superintendent or designee shall establish written procedures for locating children with exceptional needs in order to provide a free appropriate public education to all eligible children. The Board encourages all members of the community to assist the district in its effort to identify the need for special education and related services within the community.

The Superintendent or designee shall establish and implement an ongoing system to identify and locate children, age 3 through 21 years of age, suspected of having a disability who reside within the district, regardless of the severity of the disability. The components and procedures of this system will be detailed in a written Child Find Plan. The Plan shall identify a Child Find Coordinator, address coordination of child find activities, provide for annual public notice, referrals, and screening.

Child Find Coordinator

The Superintendent shall appoint a Child Find Coordinator who coordinates the development, revision, implementation, and documentation of the District's child find system.

Annual Public Notice

The Superintendent or designee shall annually inform the community about the right to, and availability of, educational services for children with disabilities. This notice shall inform parents/guardians in writing of the types of qualifying disabilities, the educational needs of children with disabilities, the rights of children to a free appropriate public education, the services available to these children, confidentiality protections, and the district's procedures for initiating a referral for assessment to identify individuals who need special education services.

The notice must be calculated to reach all persons within the District, [including all persons responsible for children who are enrolled in the District's statewide correspondence program.]

Referral

The Superintendent or designee shall implement a procedure to receive referrals of children suspected to having a disability. Referrals will be acted on without undue delay.

The school district shall obtain the informed written consent of a child's parent before conducting an initial evaluation, and before placing the student in a special education program in the district. If consent is not given for an initial evaluation, and the district believes it should proceed with the assessment, it may initiate due process hearing procedures in accordance with law to determine whether the district can proceed with an evaluation.
