

Board Report  
Christine Ketterling  
Federal Programs Director  
January 3, 2018

### **January In-Service Day**

Our annual Professional Development Day will be January 19<sup>th</sup> at the middle school. Breakout sessions will be conducted by our in-house experts and include a various assortment of topics from technology in the classroom to evidence based instructional strategies. We greatly appreciate the willingness of our staff to share best practices with others and are excited for a day of learning from each other.

### **Idaho Positive Behavior Network**

Each building has established a team that will go through the training in conjunction with our pilot project with the Idaho Positive Behavior Network. The teams will attend a conference at Boise State on January 19 to kick off our learning. The event will feature various breakout sessions that will enhance our knowledge of Positive Behavior Intervention Supports (PBIS) as a whole.
