EVALUATION RATIONALE (Attach additional pages as necessary)
 An incomplete proposal submitted by Liberty Star was not considered. The vendor sent a quote and spec sheet, but did not complete the application portion of our RFP. Points were deducted for Bluum on reputation because their references were not applicable to the scope of this project. Applicants with no previous experience with SWISD were given 5 of 10 for past relationship, as there is no reason to award full, or to deduct points.
