

Foley Public Schools Activities Department Update - April 20th, 2026

Greetings from the Foley Public Schools Activities Department,

Weight Room Fundraiser Update

The total funds raised to be put towards the weight room renovation project have reached \$118,391.00. This exceeds the \$118,148.62 required to complete Phase One of the project. This means that the racks, weights, and additional equipment depicted in the picture below will be ordered and installed prior to the start of the 2026-27 school year. Fundraising for Phase Two of the project, which includes flooring, inlays, lat pull machines, and multi function machines will still be on-going.

Foley Athletic Booster Gala

The Foley Athletic Booster Club hosted their first annual Gala on Saturday, April 11th, 2026. The Athletic and Fine Arts event included guest speakers providing insight to Foley Activities Past, Present, and Future, a dinner, raffle opportunities, a band, and a DJ. The effort put in by the Booster Club and the support shown by businesses and members of the Foley Community near and far made the event a huge success. The funds raised by the event will help the Foley Athletic Booster Club fund their annual scholarships, make a donation towards the weight room project, as well as provide the opportunity to continue to support both the Athletic and Fine Arts Departments moving forward.

Bound

The Granite Ridge Conference made the decision to transition to the Bound platform for all Conference Scheduling for the 2026-27 school year. Since that time, a very high percentage of Conferences have made the same decision and have chosen to transition away from the rSchools/Arbiter platform. With that decision being made by the GRC, Foley will be using Bound for all schedules for activities next school year. The decision has been made to utilize Bound for Registration, Ticketing, and Facilities. You can access a short Bound Presentation at the link below.

Weight Room Fundraiser Donors

I want to take time to thank all of our sponsors that have generously donated to help make the weight room renovation project a reality. The kindness of all parties involved has been overwhelming and will help provide new opportunities for Foley Public Schools, Foley Activities, and the Foley Community. Thank you everyone!
