## Mountain Lion News - May/June 2023

**A Note from Our Principal.....** Dear Parents and Guardians,  
The final month of school is upon us. There is a lot of learning to do and fun to be had, encourage your student to finish strong. The last day of school is Thursday, June 8th.

As we approach summer break, we want to encourage you to continue your child's learning journey by practicing reading and math skills. Research has shown that children who engage in learning activities during the summer months are better prepared for the upcoming school year.

Fortunately, practicing these skills can be both fun and engaging. Consider taking your child to the library to select books that interest them or playing math games during a family game night. Encourage your child to read to you or to a younger sibling, and provide opportunities for them to practice their math skills through real-world experiences, such as cooking or shopping.

Remember, learning doesn't have to stop just because the school year has ended. By continuing to practice reading and math skills over the summer, your child will have a head start in the upcoming school year.

As the school year draws to a close, we would like to take a moment to thank you for your support and dedication throughout the year. Your commitment to your child's education has been a critical component in their success.

Most Sincerely, Renee Hults

### Kinder Critter Camp
