

## Community Education Youth Enrichment School Board Positive Happenings

The Community Education Youth Enrichment program had an amazing Elementary Track and Field season this year. Our enrollment was great! We had 201 students participate which was up 46 students from last year. Students can choose from a variety of events including the 60 meter hurdles, 800 meter run, 4x100 relay, 400 meter run, 100 meter dash, mile run, sprint medley relay, long jump, shot put and discus throw. The program took a small army of dedicated people to prepare the kids for the meet which took place at the end of the four week session. To ensure that the program ran as smoothly as possible, we had numerous district teachers coaching the children and the high school track team volunteered at the May track meet. The program was a huge success!
