

Principal's School Board Report
Mitkof Middle School/Petersburg High School
6/17/2025

- We are expecting the Amplify MS mathematics materials in July. Apparently, the first shipment was lost in transit and they had to reship. This also applied to Elementary materials.
- We still have a few scheduling conflicts but believe we have a solution to them. These will be implemented in August as we settle some final schedules for students.
- The uniform late work and makeup work policy is being applied throughout the secondary schools. The staff has agreed that this will help to remedy some of the confusion with procedures.
- The cell phone policy is being rewritten in a manner that will comply with legislation and meet the desires of instructional staff in the school. We are certain it will be a bit unpopular due to the level of addiction students have to their devices.
- We are unifying most of the assembly schedules to avoid coverage problems when the MS or HS has an assembly and the other does not. The shared teacher situation makes these coverage anomalies difficult to handle so we will be scheduling assemblies on the same days to avoid this situation.
- The deadline for commencement inclusion will be included in the handbook this year as we want to establish this completion criteria.
- The office is looking forward to moving back into the offices in the fall. We will have a limited presence in the MS office in the mornings next year.
- We are revising and consolidating the handbooks. Due to the numerous updates and many formatting corrections, we will be presenting the updated handbooks at the August board meeting.
- The school staff for the 2025-26 school year is shaping up nicely. I believe in my people to do an excellent job in the coming year and am honored to work with them.

Projected Student Counts: MMS = 111
PHS = 143
