

**Administrative Procedure – Program for Managing Student  
Concussions and Head Injuries**

**Purpose**

Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. Concussions can also occur in any organized or unorganized activity and can result from a fall or from students colliding with each other, the ground, or with obstacles. The Centers for Disease Control and Prevention estimates that as many as 3,900,000 sports-related and recreation-related concussions occur in the United States each year.

Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risks of catastrophic injuries or death are significant when a concussion or head injury is not properly evaluated and managed. Continuing to play with a concussion or symptoms of a head injury leaves a young athlete especially vulnerable to greater injury and even death.

The purpose of this Administrative Procedure is to implement a program to manage concussions and head injuries suffered by students. Although the Youth Sports Concussion Safety Act contains certain requirements related to concussions sustained by students who participate in interscholastic athletic activities, these requirements may be equally applicable to students who sustain a concussion during the regular school day including during physical education or while at recess. Accordingly, the Board has adopted a comprehensive policy to address concussions sustained by all students, regardless of whether or not the concussion took place while the student was participating in an interscholastic athletic activity.

**Applicable State Laws**

1. The Youth Sports Concussion Safety Act contains concussion safety directives for school Boards and certain identified staff members. 105 ILCS 5/22-80. The District must implement 105 ILCS 5/22-80 if it offers interscholastic athletic activities or interscholastic athletics under the direction of a coach (volunteer or school employee), athletic director, or band leader. An *interscholastic athletic activity* "means any organized school-sponsored or school-sanctioned activity for students, generally outside of school instructional hours, under the direction of a coach, athletic director, or band leader, including, but not limited to, baseball, basketball, cheerleading, cross country, fencing, field hockey, football, golf, gymnastics, ice hockey, lacrosse, marching band, rugby, soccer, skating, softball, swimming and diving, tennis, track (indoor and outdoor), ultimate Frisbee, volleyball, water polo, and wrestling. All interscholastic athletics are deemed to be interscholastic activities." 105 ILCS 5/22-80(b).

The District will implement its *Concussion Care Protocol* (See Administrative Procedure 7.305-AP2, *Concussion Care Protocol – Return-to-Learn and Return-to-Play*) for a student's return to the classroom after he or she is believed to have experienced a concussion, "whether or not the concussion took place while the student was participating in an interscholastic activity." 105 ILCS 5/22-80(d). For a comprehensive discussion of this Act, see the IASB publication *Checklist for Youth Sports Concussion Safety Act*, at: [www.iasb.com/iasb/media/documents/checklistconcussionsafetyact.pdf](http://www.iasb.com/iasb/media/documents/checklistconcussionsafetyact.pdf). Helpful guidance for implementing this law plus training modules are available from the Lurie Children's

Hospital's *A Guide for Teachers and School Professionals*, also available using the above link.

2. 105 ILCS 25/1.15 requires: (a) all high school coaching personnel to complete online concussion awareness training, and (b) all student athletes to view the IHSA video about concussions.
3. 105 ILCS 25/1.20, requires the IHSA to require all member districts that have certified athletic trainers to have those trainers complete and submit a monthly report on student-athletes who have sustained a concussion during: 1) a school-sponsored activity overseen by the athletic trainer; or 2) a school-sponsored event of which the athletic director is made aware.
4. 20 ILCS 2310/2310-207 requires: (a) the Ill. Dept. of Public Health (IDPH), subject to appropriation, to develop, publish, and disseminate a brochure to educate the general public on the effects of concussions in children and discuss how to look for concussion warning signs in children, and (b) schools to distribute this brochure, free of charge, to any child or parent/guardian of a child who may have sustained a concussion, regardless of whether or not the concussion occurred while the child was participating in an interscholastic athletic activity, if available. The IDPH has adopted as its brochure the CDC's *Heads Up* campaign brochures which include concussion fact sheets for athletes, parents, coaches, and school professionals, see <https://dph.illinois.gov/topics-services/prevention-wellness/injury-violence-prevention/concussion.html>.

### **Definitions**

**Athletic trainer** - an athletic trainer licensed under the Illinois Athletic Trainers Practice Act.

**Coach** - any volunteer or employee of a school who is responsible for organizing and supervising students to teach them or train them in the fundamental skills of an interscholastic athletic activity. "Coach" refers to both head coaches and assistant coaches.

**Concussion** - a complex pathophysiological process affecting the brain caused by a traumatic physical force or impact to the head or body, which may include temporary or prolonged altered brain function resulting in physical, cognitive, or emotional symptoms or altered sleep patterns and which may or may not involve a loss of consciousness. 105 ILCS 5/22-80. See also: *Returning to School After a Concussion: A Fact Sheet for School Professionals*, [www.cdc.gov/headsup/pdfs/schools/tbi\\_returning\\_to\\_school-a.pdf](http://www.cdc.gov/headsup/pdfs/schools/tbi_returning_to_school-a.pdf)

**Game official** - a person who officiates at an interscholastic athletic activity, such as a referee or umpire, including, but not limited to, persons enrolled as game officials by the Illinois High School Association or Illinois Elementary School Association.

**Interscholastic athletic official** - any organized school-sponsored or school-sanctioned activity for students, generally outside of school instructional hours, under the direction of a coach, athletic director, or band leader, including, but not limited to, baseball, basketball, cheerleading, cross country track, fencing, field hockey, football, golf, gymnastics, ice hockey, lacrosse, marching band, rugby, soccer, skating, softball, swimming and diving, tennis, track (indoor and outdoor), ultimate Frisbee, volleyball, water polo, and wrestling. All interscholastic athletics are deemed to be interscholastic activities.

**Nurse** - a person who is employed by or volunteers at a school and is licensed under the Nurse Practice Act as a registered nurse, practical nurse, or advanced practice registered nurse.

	<p>Individuals covered by this training mandate must initially have completed the training prior to serving on the Concussion Oversight Team and at least once every two years (or if not on the Team, at least once every two years). See Board Policies 5.100, <i>Staff Development Program</i> and 7.305, <i>Student Concussions and Head Injuries</i>.</p> <p>Identify the staff members who are responsible for student athletes, including Building Principals and athletic directors, and require that they comply with IHSA concussion protocols, policies, and by-laws, including its <i>Protocol for Implementation of NFHS Sports Playing Rules for Concussions</i> at: <a href="http://www.ihsa.org/documents/sportsmedicine/ihsa_protocols_for_nfhs_concussion_playing_rule.pdf">http://www.ihsa.org/documents/sportsmedicine/ihsa_protocols_for_nfhs_concussion_playing_rule.pdf</a>.</p> <p>Along with the District Concussion Oversight Team and Building Principals, develop and maintain school-specific emergency action plan(s) for interscholastic athletic activities to address serious injuries and acute medical conditions that may cause a student's condition to deteriorate rapidly, present it/them to the Board for approval. 105 ILCS 22-80(i).</p> <p>Hold the identified staff members responsible for implementing this procedure.</p>
District Concussion Oversight Team	<p>Establish a <i>Concussion Care Protocol</i> (Administrative Procedure 7.305-AP2, <i>Concussion Care Protocol – Return-to-Learn and Return-to-Play</i>) that includes the following based on peer-reviewed scientific evidence consistent with guidelines from the Centers for Disease Control and Prevention (CDC). 105 ILCS 5/22-80(d). See <a href="http://www.cdc.gov/headsup/index.html">http://www.cdc.gov/headsup/index.html</a>.</p> <ol style="list-style-type: none"> <li>1. A return-to-learn protocol governing a student's return to the classroom following a force of impact believed to have caused a concussion. The Superintendent or designee (not a coach) must supervise the person responsible for compliance with the return-to-learn protocol. 105 ILCS 5/22-80(g).</li> <li>2. A return-to-play protocol governing a student's return to physical activity including, without limitation, recess, physical education, or interscholastic athletic practice or competition following a force of impact believed to have caused a concussion. The Superintendent or designee must supervise the Building Principals, athletic directors, and athletic trainers responsible for compliance with the <i>Concussion Care Protocol</i> (Administrative Procedure 7.305-AP2, <i>Concussion Care Protocol – Return-to-Learn and Return-to-Play</i>). 105 ILCS 5/22-80(g).</li> </ol> <p>Prior to returning to interscholastic athletic practice or competition, a student's treating physician or an athletic trainer working under a physician's supervision must evaluate and find that it is safe for the student to return to play. The student, student's parent/guardian, and treating physician/athletic trainer must sign the <i>Return-to-Play Consent Form</i> (Exhibit 7.305-AP2, E2, <i>Return-to-Play Consent Form</i>) that complies with statutory prerequisites.</p> <p>Develop an <i>emergency action plan</i> template for School Concussion Oversight Teams to use to develop school-specific <i>emergency action plans</i></p>

<b>Actor</b>	<b>Action</b>
	<p>for interscholastic athletic activities to address serious injuries and acute medical conditions that may cause a student's condition to deteriorate rapidly.</p> <p>A template is available on the IHSA website under Emergency Action Plan (EAP) Resources, at:  <a href="http://www.ihsa.org/documents/sportsmedicine/ihsa_protocols_for_nhs_concussion_playing_rule.pdf">http://www.ihsa.org/documents/sportsmedicine/ihsa_protocols_for_nhs_concussion_playing_rule.pdf</a>.</p>
School Concussion Oversight Team	<p>Along with the Building Principal and Athletic Director, facilitate implementation of the return-to-learn and return-to-play protocols within the school. The return-to-learn and return-to-play protocols govern a student's return to the classroom and physical activity, including interscholastic athletic activities, after a concussion, whether or not the concussion took place while the student was participating in an interscholastic athletic activity. Guidance from Lurie Children's Hospital explains that recovery from a concussion must be an individualized process, because no two concussions are the same. See <i>Return-to-Learn after a Concussion: A Guide for Teachers and School Professionals</i>, Lurie Children's Hospital, at: <a href="http://www.luriechildrens.org/globalassets/media/pages/specialties--conditions/programs/concussion-program/documents/lurie-return-to-learn-guide-2017-updated.pdf">www.luriechildrens.org/globalassets/media/pages/specialties--conditions/programs/concussion-program/documents/lurie-return-to-learn-guide-2017-updated.pdf</a>. This Guide explains that a student's full recovery depends on both cognitive and physical rest. It suggests using a multidisciplinary team to facilitate a student's return to the classroom and provides examples of accommodations and interventions. It also stresses the importance of identifying a school staff member who will function as a case manager or concussion management leader, e.g., a school nurse, athletic trainer, or school counselor.</p> <p>The student's treating physician or an athletic trainer working under a physician's supervision must evaluate and find that it is safe for the student to return-to-play. The student, student's parent/guardian, and treating physician/athletic trainer must sign the Return-to-Play Consent Form (Exhibit 7.305-AP2,E2, <i>Return-to-Play Consent Form</i>) that complies with statutory prerequisites.</p> <p>Along with the Building Principal and Athletic Director, and using the template developed by the District Concussion Oversight Team, develop and maintain school-specific <i>emergency action plan(s) (EAP)</i> for interscholastic athletic activities to address serious injuries and acute medical conditions that may cause a student's condition to deteriorate rapidly; present the plan(s) to the Superintendent who will present it/them to the Board for approval. 105 ILCS 22-80(i).</p>
Building Principals, Athletic Directors, and Athletic Trainers	<p>Responsible for implementing and complying with the <i>Concussion Care Protocol</i> (Administrative Procedure 7.305-AP2, <i>Concussion Care Protocol – Return-to-Learn and Return-to-Play</i>), including the return-to-learn and return-to-play protocols.</p> <p>Ensure the EAP is distributed to all appropriate personnel and conspicuously posted at all venues utilized by the school. 105 ILCS 22-80(i)(4) &amp; (5).</p> <p>Ensure the EAP is reviewed annually by all athletic trainers, first responders (including, but not limited to, emergency medical dispatchers), coaches,</p>
