

DISTRICT-SPONSORED CURRICULAR ACTIVITIES AND CLUBS

The Board of Education believes that the goals and objectives of this District are best achieved by a diversity of learning experiences, including those that are not conducted in a regular classroom but are directly related to the curriculum.

The purpose of curricular-related activities shall be to enable students to explore a wider range of individual interests than may be available in the District's courses of study but are still directly related to accomplishing the educational outcomes for students as adopted by the Board in Policy 2131.

For purposes of this policy, curricular-related activities are defined as those activities in which:

- A. the subject matter is actually taught or will be taught in a regularly offered course;
- B. the subject matter concerns the District's composite courses of study;
- C. participation is required for a particular course;
- D. participation results in academic credit.

No curricular-related activity shall be considered to be under the sponsorship of this Board unless it meets one or more of the criteria stated above and has been approved by the Superintendent.

Such activities, along with extra-curricular activities (not directly related to courses of study), may be conducted on or off school premises by clubs, associations, and organizations of students sponsored by the Board and directed by a staff advisor.

The Board shall allow nondistrict-sponsored, student clubs and activities during noninstructional time, in accordance with the provisions in Policy 5730 -- Equal Access For Nondistrict-Sponsored, Student Clubs and Activities.

No nondistrict-sponsored organization may use the name of the School District or any other name which would associate an activity with the District.

In the case of a student being educated under an IEP, the IEP Team shall determine whether or not the student has met eligibility standards appropriate for participation in an activity.

Students shall be fully informed of the curricular-related activities available to them and of the eligibility standards established for participation in these activities. District-sponsored activities shall be available to all students who elect to participate and who meet eligibility standards.

Whenever a student becomes a member of a District-established student group or national organization such as the National Honor Society, in order to remain a member, s/he must continue to meet all of the eligibility criteria and abide by the principles and practices established by the group or the organization.

The Superintendent shall prepare administrative guidelines to implement a program of curricular-related clubs and activities. Such guidelines should ensure that the needs and interests of the students are properly assessed and procedures are established for continuing evaluation of each club and activity.
