Trojan Connection Food Panty

Abby and Kelsey, our Community School Coordinators, have been hard at work! The latest includes a partnership with the Idaho Food Bank. The first delivery was made Monday, March 4th and we will continue to receive ongoing deliveries. This work will support our students, families, and the community as a whole.

Early Learning Collaborative Grant

We have received another allocation from the Idaho School Readiness Project funds to support the continued implementation and expansion of our early learning programs. We will be receiving \$40,000 from this round of funding. This grant also supplies early learning readiness kits to our preschool students at no cost to us or the families. Each kit is around a \$300 value.
