Our first round of letters has gone out informing students with more than 10 absences that they have been dropped from our school. The majority of the dropped students were inactive since the beginning of the school year so removing them will not affect our ADM. Despite the number of students we have dropped, our enrollment remains nearly the same because we have enrolled many new students.

We are in the process of finalizing our SIP plan for the school year. At the time of the Sheridan school board meeting, we will be working on implementation. Our focus is on increasing math scores on the OAKS test and increasing rates of attendance.

We recently adopted our new student handbook. The updated handbook corresponds to our newly adopted policies and our employee handbook. Both the student handbook and employee handbook can be found on our web page.

The Sheridan AllPrep school board would like to thank Sheridan School District for forgiving the debt from previous years. We appreciate the collaborative relationship with the district.

Respectfully Submitted,

Jesse Eisenschmidt, Principal
