

Board Report Department of Technology

To: Mrs. Jones and the Board of Trustees
Date: October 27, 2025
Subject: Technology Department Board Report

Technology Updates

Frontline absence management system has been implemented for the substitutes to be able to apply for teacher absences and vacancies. Global Data Technologies have installed all desktop phones in all classrooms and office areas. This has made us compliant with the Rayburn and Alyssa Law in Texas. Verkada cameras have been installed at the Ag Barn to monitor the premises. Chromebooks have been implemented district wide for grades 3-12. Verkada Visitor Management system has been implemented in order to know what visitors are on our campuses.

Technology Upgrades

Vivi signage boxes have been installed on all campuses. This will allow staff and students to be able to know what is going on in the event of an emergency. Due to E-rate funding arriving late, we will replace the Wi-Fi access points on the elementary campuses during Christmas break. We will replace the network switches on the middle school campus at the end of the school year.

Cybersecurity Update

Cybersecurity remains to be of importance for all school districts. We have had no cybersecurity threats for the last 3 months.

E-rate Update

E-rate funding will be allocated for the next 5-year cycle.

Problems and Needs
