

**Bandera Independent School District
BOARD OF TRUSTEES**

Date: January 13, 2020 Presented By: Ed Barnes

Subject: December Facilities Report Related Page(s)

Consent Agenda

EXECUTIVE SUMMARY:

In December, our primary focus was routine maintenance and repairs. Repairs were made to the HVAC unit that serves the library at Bandera Middle School. The science room exhaust fans at Bandera High School were cleaned and repaired. All of the kitchen hoods and vents in the district were professionally cleaned, and repairs made as needed. Door and window glass repairs were made at BHS. Other repairs at BHS included replacement of piers supporting the drama portable. Recent inspection revealed that many of the piers were leaning or had crumbled, creating an unsafe condition. A new plumbing vault was installed behind the cafeteria to protect and provide access to valves and connections. With the classrooms vacant during the Winter Break, 14 white boards were installed in BHS classrooms.

Soft-fall material was delivered and installed on all of the elementary playgrounds. The stadium field was laid out and marked for the upcoming soccer season. There were several meetings with the Athletic Director to plan for additional storage and other athletic needs. Another design meeting was held with administration and staff for the demonstration classrooms. A new waste management contract was entered into for Hill Country Elementary due to the current vendor no longer providing service to that area. Interviews began for the new maintenance position.
