

January 26, 2026 Board Meeting

**I. Unfinished Business:**

**I.1. Approve 26-27 School Calendar** - Attached is the proposed 2026–27 school calendar, which includes several changes from prior years. One adjustment moves parent-teacher conferences earlier in the year and splits them between a traditional evening session and a morning session. This results in the loss of one contracted day in that month, as the conference day would typically have been a full workday with conferences held afterward. The lost day is made up elsewhere in the calendar.

To address planning and instructional needs, two professional development days were added in June to allow time for a deeper analysis of assessment data and to support end-of-year planning. In total, professional development days increase to 12, with six occurring during the school year. One additional professional development day was added immediately following spring parent-teacher conferences.

These calendar adjustments allow for an additional day during winter break and provide for Presidents' Day as a non-student day. The proposed changes reflect feedback from staff surveys and discussions with the district leadership team.

**I.2. Purchase Agreement for Parcel of Land** - This item relates to the parcel discussed at the previous board meeting (Parcel #03-0008301). The purchaser has agreed to a purchase price of \$3,000 and will also cover all legal expenses associated with the transaction. I have consulted with the board chair and reviewed the legal process related to this sale. The purchaser will be present at the board meeting and be available to answer any questions the board may have.
