BE RESPECTFUL

BE RESPONSIBLE

BE SAFE

BE EXCELLENT

OCTOBER 2021 SCHOOL BOARD REPORT

National Walk to School Day

Elementary students, teachers and some parents enjoyed walking to school. Walk to School Day is done with other schools nationwide. It helps promote a healthy lifestyle and also helps enforce safe routes to school. This year there were over 2,400 participating schools.

4th/5th Grade Field Trips

Our older students have been enjoying learning through hands-on opportunities. The 4th/5th grade students went to Forte Folle Avoine to learn all about Wisconsin in the pioneer days. They also went mucking in the St. Croix River learning about all the organisms that are alive in the river.

Homecoming Dress up Days

Elementary students enjoyed dressing up for homecoming. We had many students displaying their school spirit on America Day, Twin Day, Celebrity Day, Jersey Day and Viking Pride Day. Personal favorites were a little kindergartner who came dressed as Jackie Kennedy on Celebrity Day or the 4th grader who came with a mirror on twin day as she was her own twin. The Elementary PTO organization sold affordable items on Thursday and Friday for students to purchase that showed school spirit. A popular favorite were the mini foam fingers and slap bracelets. The best moment was when the elementary students started chanting the school song as they were marching in the parade.

Pumpkin Painting and Apple Picking in 4k

Our littlest Vikings have been learning all about Fall and the harvest with hands on experiences in picking apples, peeling apples, making apple sauce and painting mini pumpkins.

Ag on the Lawn

Students got to enjoy learning from our MS/HS FFA students and volunteers about farming, machinery, hay rides and, of course, they got to pet animals.

Parent Teacher Conferences

Parent Teacher conferences are taking place on Monday, Oct. 18th and Thursday, Oct. 21st. Parents have the option of signing up for in-person, virtual or phone call conferences. For those who come in person, our library is open and handing out take home kits for parents to play educational games with their children at home. Jessica O'Connor and Johanna Stieber organized this new and exciting offering to our families.

Fire Prevention Week

Students in Kindergarten and First Grade got to learn about fire safety with our local Fire Chief, Brian Daeffler. Students also got to see AJ Peterson dressed up in firefighter gear as they learned all about fire prevention and what to do in an emergency.
