Sheridan High School Board Report

April 8, 2020

THANK YOU, THANK YOU to all SHS staff. This is a hard time, but all staff have stepped up to help out our students.

Becky Anderson and Barbie Justen are now making 275 lunch/breakfast bags. This has continued to increase daily from the 60 they started with before spring break. They also practice the 6ft social distancing!

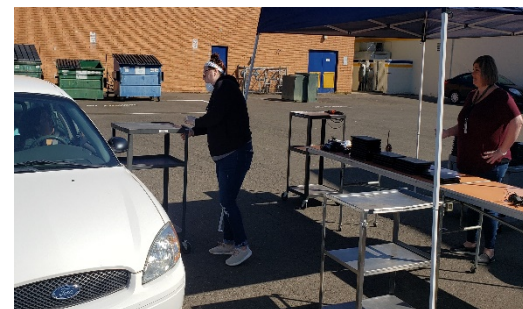

Midco Bus Co. drivers have been great! They have been driving our classified aides out on 4 different routes to deliver lunches and packet work.

Teachers are rolling with the times and have really impressed me with being able to adapt. From learning how to

navigate Zoom meetings, to setting up Google Classrooms, and communicating on Remind. They are all here to help our students and community. Several teachers helped hand out Chromebooks and belongings

from lockers. They have also set up a good system for student packets in the old gym.

Reports to the School Board
