

Parkrose School District 3

Code: EFA-AR
Adopted: 10/06
Revised: 05/27/08

LOCAL WELLNESS PROGRAM

The district's comprehensive age-appropriate nutrition program will be implemented in district schools in accordance with the following requirements:

Definitions:

1. "Competitive foods" means any food or drink sold in competition with the National School Lunch Program (NSLP) and/or School Breakfast Program (SBP) in food service areas during the meal periods;
2. "Dietary Guidelines for Americans" means the current set of recommendations of the federal government that are designed to help people choose diets that will meet nutrient requirements, promote health, support active lives and reduce chronic disease risks;
3. "Nutrition education" means a planned sequential instructional program that provides knowledge and teaches skills to help students adopt and maintain lifelong healthy eating habits;
4. "Foods of minimal nutritional value (FMNV)" means:
 - a. In the case of artificially sweetened foods, a food which provides less than five percent of the Reference Daily Intakes (RDI) for each of eight specified nutrients per serving; and
 - b. In the case of all other foods, a food which provides less than five percent of the RDI for each of eight specified nutrients per 100 calories and less than five percent of the RDI for each of eight specified nutrients per serving. The eight nutrients to be assessed for this purpose are - protein, vitamin A, vitamin C, niacin, riboflavin, thiamine, calcium and iron;
 - c. Food that is classified into four categories:
 - (1) Carbonated soft drinks;
 - (2) Chewing gum;
 - (3) Water ices; and
 - (4) Certain candies made predominantly from sweeteners such as hard candy, licorice, jelly beans, gum drops, marshmallows, fondant, cotton candy and candy-coated popcorn.
5. "Food service area" means any area on school premises where NSLP or SBP meals are both served and eaten, as well as any areas in which NSLP or SBP meals are either served or eaten;

6. “Meal period” means the period(s) during which breakfast or lunch meals are served and eaten, and as identified on the school schedule.

Nutrition Education

Nutrition education shall focus on students’ eating behaviors, be based on theories and methods proven effective by research and be consistent with state and local district health education standards. Nutrition education at all levels of the district’s curriculum shall include, but not be limited to, the following essential components designed to help students learn:

1. Age-appropriate nutritional knowledge, including the following:
 -  Benefits of healthy eating;
 -  Essential nutrients;
 -  Nutritional deficiencies;
 -  Principles of healthy weight management;
 -  The use and misuse of dietary supplements;
 -  Safe food preparation;
 -  Handling and storage; and,
 -  Cultural diversity related to food and eating.
2. Age-appropriate nutrition-related skills, including, but not limited to the following:
 -  Planning a healthy meal;
 -  Understanding and using food labels;
 -  Critically evaluating nutrition information, misinformation and commercial food advertising; and age-appropriate advertisements, informed consumerism, warn against false advertising about food.
3. How to assess one’s personal eating habits, set goals for improvement and achieve those goals.

In order to reinforce and support district nutrition education efforts, the building principal is responsible for ensuring:

4. Nutrition instruction is closely coordinated with the school’s nutrition and food services operation and other components of the school health program to reinforce messages on healthy eating and includes social learning techniques. To maximize classroom time, nutrition concepts shall be integrated into the instruction of other subject areas where possible;
5. Links with nutrition service providers (e.g., qualified public health and nutrition professionals) are established to: provide screening, referral and counseling for nutritional problems; inform families about supplemental nutritional services available in the community (e.g., food stamps, local food pantries, summer food services program, child and adult care food program), and implement nutrition education and promotion activities for school staff, Board members and parents;

6. In keeping with the district's nutrition program goals, all classroom reward or incentive programs involving food items are reviewed for approval to ensure that the foods served meet the requirements of the district's nutrition policy and regulation (i.e., all foods served fit in a healthy diet as recommended in the Dietary Guidelines for Americans, and contribute to the development of lifelong healthy eating habits for the district's students).
7. Child Nutrition Staff support nutrition education by marketing healthy meals and providing nutrition information to students and families. This information may be found in print and on the district website.

Physical *Education*/Activity

In order to insure students are afforded the opportunity to engage in physical activity in the school setting, the following guidelines apply:

1. *Physical activity will be integrated across curricula and throughout the school day. Movement will be made part of science, math, social studies, and language arts;*
2. Physical education will be a course of study that focuses on students' development of motor skills, movement forms, and health related fitness;
3. Physical education courses will be the environment where students learn, practice and are assessed on developmentally appropriate motor skills, teaming, and good principles of sportsmanship;
4. All physical education classes will be taught by highly qualified physical education instructors; and
5. A daily recess period will be provided.
6. *Physical education instruction shall be sequential, developmentally appropriate curriculum that is designed, implemented and evaluated to help students develop the knowledge, motor skills, self management skills, attitudes and confidence needed to adopt and maintain physical activity throughout their lives.*

Nutrition Guidelines and Food Services Operation

In order to support the school's nutrition and food services operation as an essential partner in the educational mission of the district and its role in the district's comprehensive nutrition program, the building principal is responsible for ensuring:

1. The school encourages all students to participate in the school's NSLP and SBP meal opportunities;

2. The school notifies families of need-based programs for free or reduced-price meals and encourages eligible families to apply. There will be multiple opportunities to apply, applications posted on bulletin boards and on the district and school websites.
3. The school's NSLP/SBP maintains the confidentiality of students and families applying for or receiving free or reduced-priced meals in accordance with the National School Lunch Act;
4. The school's NSLP/SBP operates to meet nutrition standards in accordance with the Healthy Meals for Healthy Americans Act of 1994, as amended, and applicable state laws and regulations;
5. The school sells or serves varied and nutritious food choices consistent with the applicable federal government Dietary Guidelines for Americans. Schools contracting out the food service part of their NSLP and SBP shall form a wellness advisory committee comprised of teachers, students and parents to assist in menu planning. Cultural norms and preferences will be considered;
6. Food prices set by the district are communicated to students and parents. District pricing strategies will encourage students to purchase full meals and nutritious items;
7. Procedures are in place for providing to families, on request, information about the ingredients and nutritional value of the foods served;
8. Modified meals are prepared for students with special food needs:
 - a. The district will provide substitute foods to students with disabilities upon written parental permission and a medical statement by a National School Lunch Program (NSLP) approved medical source that identifies the following:
 - Student's disability;
 - States why the disability restricts the student's diet;
 - Identifies the major life activity affected by the disability; and,
 - States the food or foods to be omitted and the food or choice of foods that must be substituted;
 - b. Such food substitutions will be made for students without disabilities on a case-by-case basis when the parent submits a signed request that includes a medical statement signed by a National School Lunch Program (NSLP) medical source. The medical statement must state the medical condition or special dietary need that restricts the student's diet and provide a list of food(s) that may be substituted in place of the lunch or breakfast menu being served.
9. Food service equipment and facilities meet applicable local and state standards concerning health, safe food preparation, handling and storage, drinking water, sanitation and workplace safety;

10. Students are provided adequate time and space to eat meals in a pleasant and safe environment. School dining areas will be reviewed to ensure:
 - a. Tables and chairs are of the appropriate size for students;
 - b. Seating is not overcrowded;
 - c. Students have a relaxed environment;
 - d. Noise is not allowed to become excessive;
 - e. Rules for safe behavior are consistently enforced;
 - f. Tables and floors are cleaned between meal periods;
 - g. The physical structure of the eating area is in good repair;
 - h. Appropriate supervision is provided;
 - i. School lunch programs are designed to enhance student learning and increase positive behaviors (e.g. recess before lunch, breakfast in the classroom).
11. The guidelines for reimbursable school meals shall not be less restrictive than regulations and guidance issued by the Secretary of Agriculture pursuant to subsections (a) and (b) of section 10 of the Child Nutrition Act (42 U.S.C. 1779) and sections 9(f)(1) and 17(a) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(f)(1), 1766(a)), as those regulations and guidance apply to schools.

Other School Based Activities

The district may provide the following activities and will encourage healthy practices which promote local wellness such as:

1. Scoliosis screenings;
2. Intramural sports;
3. Foodless Fundraisers;
4. Monthly/Weekly school walks;
5. Assemblies which focus on wellness issues such as obesity and obesity related diseases, healthy eating, and the benefits of physical exercise;
6. The use of alternates to food as rewards in the classroom;
7. Limit the amount of foods with no nutritional value that are sold in vending machines; and
8. Support groups for students with issues about weight.

Foods of Minimal Nutritional Value (FMNV) and Competitive Food Sales

In keeping with federal regulations, the district controls the sale of FMNV and all competitive foods.

Though federal regulations permit FMNV to be sold in food service areas before and after school meal periods, and outside of food service areas at any time, district schools ~~are directed to prohibit such sales on district premises and at district-sponsored events, at any time minimize such sales by requiring that half of all such food items and beverages sold by any organization or entity at any location on district premises and at district-sponsored events (e.g., vending machine offerings, student stores, school or district events, food sales at activity/athletic events, etc.) meet applicable Dietary Guidelines for Americans (see appendix)~~ *shall meet minimum state requirements.*

The sale of all other foods, other than FMNV, in competition with the district's NSLP/SBP meals shall be permitted in school food service areas during school meal periods only when all income from the food sales accrues to the benefit of the district's nutrition and food services operation or school or student organization as approved by the Board.

Other Foods Offered or Sold Must Comply with H.B. 2650 (see appendix)

Foods offered in classrooms or school-sponsored activities and food and beverages sold as part of approved school fund-raising events shall ~~be nutritious foods as determined by the district's wellness committee~~ *meet minimum state requirements unless otherwise exempt by state law.*

Staff Development

Professional development training opportunities for staff will be encouraged. Staff responsible for nutrition education will be encouraged to participate in professional development activities to effectively deliver the nutrition education program as planned. Nutrition and food services personnel receive opportunities to participate in professional development activities that address strategies for promoting healthy eating behavior, food safety, maintaining safe, orderly and pleasant eating environments and other topics directly relevant to the employee's job duties. The building principal is responsible to ensure such training is made available including, but not limited to, the following:

1. Personnel management;
2. Financial management and record keeping;
3. Cost- and labor-efficient food purchasing and preparation;
4. Sanitation and safe food handling, preparation and storage;
5. Planning menus for students with special needs and students of diverse cultural backgrounds;

6. Customer service and student and family involvement;
7. Marketing healthy meals; and
8. Principles of nutrition education, including selected curriculum content and innovative nutrition teaching strategies;
9. Assessment by staff of their own eating practices and increased awareness of behavioral messages staff provide as role models.

Family and Community Involvement

In order to promote family and community involvement in supporting and reinforcing nutrition education in the schools, the building principal is responsible for ensuring:

1. Nutrition education materials and cafeteria menus are sent home with students;
2. Parents are encouraged to send healthy snacks/meals to school;
3. Parents and other family members are invited to periodically eat with their student in the cafeteria;
4. Families are invited to attend exhibitions of student nutrition projects or health fairs;
5. Nutrition education workshops and screening services are offered;
6. Nutrition education homework that students can do with their families is assigned (e.g., reading and interpreting food labels, reading nutrition-related newsletters, preparing healthy recipes, etc.);
7. School staff are encouraged to cooperate with other agencies and community groups to provide opportunities for student volunteer or paid work related to nutrition, as appropriate;
8. School staff encourages and provides support for parental involvement in their children's physical education;
9. Materials promoting physical activity are sent home with students; and
10. Physical activity is a planned part of school-community events as often as possible.

Program Evaluation

In order to evaluate the effectiveness of the local wellness program in promoting healthy eating, increased physical activity among students and to implement program changes as necessary to

increase its effectiveness, the superintendent or designee is responsible for ensuring as many evaluation measures as possible are implemented:

1. Board policy and this administrative regulation are implemented as written;
2. All building, grade-level nutrition education curricula and materials are assessed for accuracy, completeness, balance and consistency with state and local district educational goals and standards;
3. Nutrition education is provided throughout the student's school years as part of the district's age-appropriate, comprehensive nutrition program;
4. Teachers deliver nutrition education through age-appropriate, culturally relevant, participatory activities that include social learning strategies and activities;
5. Teachers and school nutrition and food services personnel have undertaken joint project planning and action;
6. Teachers have received curriculum-specific training;
7. Families and community organizations are involved, to the extent practicable, in nutrition education;
8. One or more persons within the local educational agency or at each school, as appropriate, will be charged with the operational responsibility of ensuring that the policy and administrative regulations are followed and will develop a evaluation plan to be used to assess the district's level of compliance with the requirements;
9. Teachers provide physical activity instruction and programs that meet the needs and interests of all students.
10. Assessment using "Oregon Healthy Teens Survey" information.
11. District developed survey of "Healthy Wellness Practices" given annually.
12. Annual program evaluation of "Healthier Generation Alliance" project while Parkrose is a participant.
