Next Generation Accountability System

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It provides a holistic, multifactor perspective of district and school performance.

Next Generation Accountability System

Next Generation Accountability Indicators	Brief Explanation						
Indicator 1: Academic Achievement – ELA, Math, and Science (All Students, Students with High Needs)	A subject-specific index (0-100) is calculated based on the scale scores earned by every student in every tested area on standard and alternate assessments. Think of the index as an average measure of overall performance in a content area.						
Indicator 2 (a-d): Academic Growth – ELA and Math (All Students, Students with High Needs)	Every student in Grades 4-8 have Smarter Balanced growth targets in ELA and Math. This indicator is the average percentage of target achieved across all students.						
Indicator 2 (e, f): Growth Toward English Language Proficiency	Similar to academic growth measured by Smarter Balanced, this indicator is the average percentage of growth target achieved based on LAS Links for all English learners. There are growth scores calculated for literacy and oral.						
Indicator 4: Attendance / Chronic Absence (All Students, Students with High Needs)	Chronic absenteeism is the percentage of students missing at least 10% of the total number of days enrolled in the school year for any reason. Schools/districts earn all available points if the rate is less than or equal to 5%. No points awarded if rate is 30% or greater.
