

RELATIONS BETWEEN PRIVATE INDUSTRY AND THE SCHOOLS

The School Board encourages representatives of private industry to participate with the schools in preparing our students for challenges they will meet in the future. Working together as partners, the business community and the schools should seek to educate citizens who can contribute to the productive work force on which our economy depends.

(cf. 1150 – Board Commendation Program)

Local employers are encouraged to serve on advisory committees, help design regular, vocational and technical programs, and provide needs assessments, program evaluations, and/or staff development for school managers and teachers. Businesses may also provide classroom assistance, individual tutoring, incentive and recognition programs, work experience opportunities, apprenticeship programs and employment opportunities. The Board recognizes that the success of business involvement depends largely upon the commitment of adequate staff resources to plan and implement such activities.

The Board urges employers to further support the schools by recognizing their employees' needs as parents and by supporting parent involvement with the schools.
