

Hallsville ISD Department of Special Education

Director:
Amy Collins

Update for April School Board meeting:

- 1.) Special ed field day is around the corner! April 24th is the special day! Swing by around 10:00 if you are free and enjoy the comradery and lots of smiles!
- 2.) As of now, we are at 875 students in special education. We will add more over the next few weeks of school; however, this shows that even though we are increasing numbers, the rate at which new students are being identified is slowing.
- 3.) TEA is reportedly releasing a new funding formula for special education. This new formula is based upon the level of services a student receives. In true TEA form, we do not know how this will impact our funding even though it is slated to begin with the 2026-2027 school year. More to come!
- 4.) Indicators for compliance reporting are getting a major overhaul as well. We report on SPP 11a, 11b, 13, 14, and 7. We work closely with TVAH to report these together. These indicators are “100%” items-if we are not 100% compliant, we are out of compliance.
