March 2026 - Activities Director Board Report

It was another very successful Winter Sports Season here at THS. We had records broken across multiple sports, individuals chasing state records, and new records being written. The students continue to build off the recent success in past years adding to those past accomplishments while maintaining very successful programs overall. The activities side has also been very successful, FCCLA qualified more events than previous years to the state competition. Forensics continues to be a Juggernaut with all members and events advancing to the District Level we are hosting on Saturday March 21. All in all, the students continue to grow, succeed, and have successful endeavors in everything they are doing.

Reminder, spring sports will be starting this month. Anyone interested in Spring Sports must communicate with Michelle Schiltz in the High School Office. A WIAA Physical must be completed to begin practices on time.

In two years, we will have a large 4th grade class coming into the program where we should be able to split and have two teams.
