Superintendent Board Report
June 2025

- The Health Life Safety project with Vergey is making progress. At Bluffview, the storefront windows and Bollards will be installed by the middle of July. At DJH/DHS, the roof repairs will be starting soon, the bathroom remodels are beginning this week, and the bleacher repairs are well underway. The chiller for the high school will be installed by a crane the week of June 30, 2025.

- The external doors at BV are being replaced through the maintenance grant this week.

- We are excited to partner with the Columbia School District to offer two hours of electrician pathway classes for their students. The program was a huge success for us last year, so we have expanded it and now offer classes through the IBEW Local 309 for Columbia students.

- Bluffview Kindergarten and 6th Grade Celebrations were a huge success. The students sang and were honored for their accomplishments this year.

- At the end of the school year, Bluffview had transition days for both Pre-K moving into kindergarten and 6th-grade students transitioning to the junior high school.

- Bluffview celebrated the end of the school year with a Field and Fun day. They had a giant bubble machine for the younger students. The Dupo Jr./Sr. High Student Councils had field days with a Snow Cone truck provided by the Booster Club.

- Bluffview and Dupo Jr./Sr. High schools continue to take a proactive approach to academic excellence. This summer, professional development will be offered to our teachers to ensure they are well-prepared for the new Math curriculum at Bluffview and to facilitate continued improvement at DJH/DHS.

- Our ESSER funding plans are posted on the district website. The majority of use of these funds are for support of additional instruction due to learning loss during the pandemic, including after-school tutoring, summer school, and new certified instructional positions that were added to support small group instruction and delivery of interventions. Additional expenses are technology, air quality, and security.
