

Browning High School is requesting another HPE position to be created for 2020-2021

Projected Enrollment for 20-21: 600 (Private School not accounted for)

9: 131

10: 153

11: 168

12: 148

Current Enrollment 19-20: 577

9: 153

10: 168

11: 148

12: 108

Current Class Sizes:

Teacher 1

1st - Health - 16 Students

2nd - Health - 18 Students

3rd - PE/Conditioning - 12 Students

4th - PE/Conditioning - 20 Students

5th - PE/Conditioning - 25 Students

6th - PE/Conditioning - 27 Students

Teacher 2

1st - PE - 27 Students

2nd - PE/Conditioning - 25 Students

3rd - Health - 30 Students

4th - Health - 28 Students

5th - PE - 31 Students

6th - PE - 29 Students

Justification for additional teacher

- OPI and BHS Requirement:
 - Freshman must take 1 semester of Health
 - All students must have 2 semesters of PE over two years
- There are students that want to be in PE and/or Conditioning but can't be because of already overloaded classes.
- The conditioning classes are at capacity, with the exception of the 3rd period
- BHS is already limited in its availability of electives.
- Many upperclassmen students are struggling to earn their PE credits needed for graduation because they suffer from self-esteem/body-image/anxiety issues. These students would surely benefit from smaller PE class sizes and potentially an alternative type of PE that focused on ways to cope with these issues.

- Our community has high diabetes, heart disease, and obesity rate
- We also have a high number of students that have ADHD as well as other mental health issues (such as anxiety or depression) and benefit from taking a PE class every semester during their four years of high school

WITH A THIRD TEACHER:

- offer six periods of health, PE and conditioning.
- Ability to add non-traditional PE / Conditioning classes.
- Designate certain periods for make-up health for the upper class.
- Numbers:
 - Potential to service 24 students per period per prep. 124 health, 124 PE, 124 conditioning (potential) prevent overcrowding.
