RE: Strategic Plan Update

DATE: April 27, 2010

On December 15, 2009, the Board was provided with an update regarding what the district had accomplished in relation to the strategic plan in the months following the annual review on June 23, 2009. The Board was also given an update regarding the status of all the Specific End Results (SER) contained in the plan.

While the Board did decide on December 15 to reduce the total number of reports about the strategic plan that are presented each year (switched from a quarterly report to once a trimester), it did request a brief update regarding the plan prior to the annual review in June 2010. The attached report has been created in response to that request and highlights what has been accomplished since the last report was presented to the Board on December 15, as well as information regarding upcoming activities related to the strategic plan.
