BUSINESS MANAGEMENT ENERGY MANGEMENT CONSERVATION

JUNE 16, 2008

Reviewed 2/2014

The Board of Education supports a culture of energy conservation. It is our responsibility to ensure that every effort is made to conserve energy and natural resources with realistic goals while maintaining a comfortable educational environment and exercising sound financial management.

~~The implementation of this policy is the joint responsibility of the Board members, administrators, teachers, students, support personnel, and other stakeholders. Its success is based on cooperation at all levels.~~

~~The Superintendent shall establish and implement procedures to ensure the conservation of energy and natural resources at all levels of the school system. These procedures will include short and long range strategies for energy savings management, preventive maintenance, and monitoring for its facilities and systems, including HVAC, building envelope, and moisture management. The Superintendent shall designate an energy educator/supervisor to implement, manage, direct, monitor, evaluate, and report district conservation and efficiency efforts.~~

~~The district will maintain accurate records of energy consumption and cost of energy and will provide information to the Board of Education on the goals and progress of the energy conservation program.~~

~~The principal/building administrator will support energy management at his/her building with energy audits being conducted by the district and conservation program outlines being updated.~~

All district personnel are expected to contribute to energy efficiency in our district. Every person is expected to be an energy saver as well as an energy consumer.

It is the responsibility of the school district to educate users on energy consumption and conservation.
