RE: Northwestern Illinois Association (NIA) Invoice Adjustment

Northwestern Illinois Association (NIA) necessitated an invoice adjusted due a discrepancy between projected and actual service provision. Specifically, in January, 2017, projections identified one (1) student eligible for the Early Childhood Hearing Impaired program. NIA provides personalized frequency modulation (FM) systems for each student to facilitate auditory communication between classroom teacher and student. Resulting from new initial evaluations that have occurred since January, 2017, the current student population is four (4). Therefore, an increase in three (3) FM systems as provided by NIA is necessary. The attached information documents the need for a total invoiced amount is \$603.00.
