Three Rivers School District

# Personnel Review Custodial

## Thank You and Best Wishes

It's with a heavy heart that we bid fare well to one of our top head custodians. Chris Marsh is leaving us for an outstanding opportunity for he and his family in Washington State. Chris started out as a sub custodian back in 2003 and worked his way up to the head custodian position at Fruitdale Elementary. I can personally say that his hard work, dedication and mainly his friendship will be truly missed.

His departure has left the district needing to find a qualified temporary replacement until the position can be filled. I am happy to report that we have the right person for the job in Greg Rodgers. Greg has been filling in as Head Custodian at Fleming Middle School while their regular one was out. Greg has done an outstanding job at Fleming and I know he will carry that over to Fruitdale.

## Congratulations

Interviews were conducted at Lorna Byrne Middle School to fill the open 8 hour night custodian position.

We had four great candidates, each of which would have been outstanding for the position. Congratulations to Brian Richardson on being selected to fill the position. Brian was one of the night custodians at IVHS. He has been a custodian with the district since November of 2011 and had been doing an outstanding job.

This now leaves the district with two open positions in the custodial department, Illinois Valley H.S. and Fort Vannoy Elementary.

# Winter Break

## Inspections

With the short number of school days and special events happening throughout the district prior to winter break the normal custodial inspection were placed on hold. Our inspection schedule commenced again on January 7th.

## Winter Programs

I would like to commend the custodial staff for their outstanding efforts in preparing, setting up and breaking down for the schools winter programs. They were able to set up and take down over 3,200 chairs, along with bleachers, tables and everything else that was needed for students to perform. As a parent of a 4<sup>th</sup> grader, I thank you very much. Well Done.

## Winter Projects

Along with spending time with family and friends the custodial staff were able to get a few projects done during break. Here are a few that were accomplished:

- Complete HVAC filter change outs
- Cleaned, organized all custodial rooms and closets.
- Extracted over 250,000 square feet of carpet
- Scrubbed and laid new floor finish
- Burnished over 300,000 square feet of hard floors

# OSHA

## OSHA Compliance

I had the opportunity last month to attend a one day seminar covering OSHA compliance. This 7 hour seminar was held in Eugene and was paid for by ARAMARK. It was in-depth and covered a wild range of topics. Below are a few of the things that were hi-lighted during the seminar.

- OSHA's Purpose
- What critical items OSHA will be looking for in 2013
- OSHA citations and fines
- Inspection requirements
- Hazard Assessment
- Hazard Communication
- Fire prevention
- MSDS and the up coming changes
