Dear Gerald Loden:

Thank you for your continued support of our Emergency Preparedness program at NMMC. In the case of a disaster or mass casualty event when our facilities are inhabitable at NMMC, we ask for the use of your gymnasiums to triage and care for our patients and community as well as your school buses for the purpose of an emergency mass transport to other healthcare facilities. If your organization is willing to support this, please respond by submitting a letter of approval to my above address. Thank you for all that you do.
