Background Information

Per CH (Legal) & (Local):

The existing roofs at Duncanville High School are approaching over 30 years of lifespan and need to be replaced. Buildings H, N, P and Q roof replacement as well as new HVAC Units are being provided for these buildings. These roofs have deteriorated more than others and are now warranted to receive new roofs. For over twenty years, the district has successfully utilized roof consultants Armko Industries to support our roofing needs. Armko Industries is partnering with the district to support the entire process from evaluation, drawings, bid support and construction observations.

The total cost of this agreement is \$150,000. Armko Industries will continue support the district through the end of the construction of the Duncanville HS roof.
