Materials Distribution**

The district allows the distribution and posting of certain material by non-school organizations. The district does not endorse any event, service or point of view contained in the information it distributes to students through this policy. The district encourages parents to assist their children in making choices appropriate for them.

Requests by individuals or groups to distribute pamphlets, booklets, flyers, brochures, signage and other similar material to students for classroom use or to take home shall be submitted to the Communications and Community Involvement Department. The material and the proposed method of distribution or posting, shall be subject to staff review and approval. The material submitted for review must offer educational and/or extracurricular learning opportunities for students, families and/or staff.

There shall be no posting or distribution of material that: is obscene, indecent or vulgar; advocates illegal activities, violence, gangs or hate; contains libelous or defamatory information; discriminates or contains bias toward an individual's age, race, sex, gender expression, gender identity, disability, national origin, sexual orientation, religion or ethnic identity; is likely to cause substantial disruption of the education of students in the school in which the material is posted or distributed; promotes, favors or opposes a candidate for elected office or a ballot measure; advocates or prohibits religion or a particular religious viewpoint through proselytization.

The superintendent will develop an administrative regulation to implement this policy. The regulation will address, among other criteria, the requirements of the review and approval process to post and/or distribute material in the district.
