

Superintendent's Update

For the period: November 9, 2016 through December 13, 2016

Maintaining an Instructional Focus

- We have a number of outside consultants who have been working with our teachers on professional development. Even though the Montana Striving Readers Program (MSRP) is no longer in place, we have replaced that with Title I School Improvement grants at Browning High School, Browning Middle School, Napi, Browning Elementary School, KW Bergen, and Vina Chattin. Each of these grants requires the use of outside instructional consultants as well as some specific professional development. Jeri Matt will give an overview of the instructional consultants' roles at each of the schools.

Maintenance and Custodial

- Richard Sanchez will outline the activities that the maintenance staff will be involved with over the upcoming break.
- Malcolm Hagberg will discuss activities that the custodial staff will be involved with over the upcoming break.
