Our Proposal Includes,

- Our proposal is valid for thirty (30) days from the date of submission.
- This quote is based on using existing fixture feeds and fixture support unless specially noted.
- Customer shall supply contractor with adequate secure space for staging and recycling of material.
- This quote includes only items and equipment as specified above. Any additional work that shall be required and or requested shall be furnished at \$135.00 per man hour, material shall be billed at cost plus 10%. No additional work shall be performed until a signed change order is in place.
- This quote is based on working hours namely, Monday – Friday 7:00am – 4:00pm.

Sales tax is excluded.

All agreements contingent upon strikes, accidents or delays beyond our control. Owner is to carry fire, tornado and other necessary insurance upon above work.

We may withdraw this proposal if not accepted within 30 days of the date of this proposal.

We reserve the right to negotiate a fair and equitable contract.

We truly appreciate the opportunity to quote your project needs. If you have any questions, or require anything further, please don't hesitate to call. Thank you.

Respectively,

Mario Capetillo
Energy Services

Acceptance of Proposal

The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified.

Short Specification:

LouversLED's series of luminaires was designed and built with high performance, efficiency and cost-effectiveness in mind. LouversLED products provide higher efficacy, longer lifetime and more reliable lighting than other conventional lighting products. The Mustang Highbay is the perfect fixture for use in large buildings with open spaces where cost is the primary concern. But don't let the term "Economy" fool you. Yes, it's aggressively priced, but it's also solidly built and extremely efficient. The diffuser protects the LEDs and softens the light from them. Multiple hanging options and adders like sensors, cords, and battery backup make this the best fixture for many different jobs. This is not your typical LED highbay!

• Lumens and watts based on testing of 120/277V fixtures

*Denotes custom order

Applications:

- Gymnasiums
- Schools and universities
- Sports arenas
- Warehouses

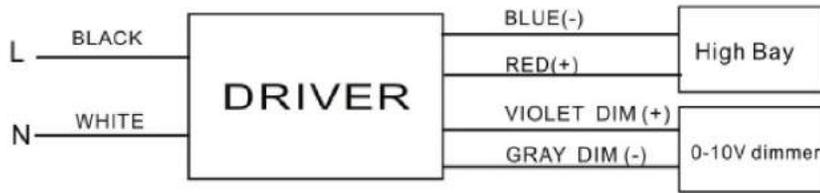

Features:

- UL listed
- Suitable for damp locations
- Glass-free
- Surface mount installation
- 100/277V or 347/480V
- >120 Lm/w
- CRI: >80
- 4,000K or 5,000K color temperatures
- Operating temp: -22°F to +113°F
- 0 to 10V dimming
- L70 of 50,000 hours
