

# Curriculum & Instruction Board Report

## May 2017

### **State Assessments**

Since our last board meeting, we have completed our TELPAS testing, STAAR Alt 2 testing and all of High School EOC testing. The week of May 8th - 12th we will complete all of 3rd grade through 8th grade STAAR testing.

TELPAS results have already begun arriving in the district as well as 5th and 8th STAAR reading and math results. We have several 5th and 8th graders that will need to retest on the STAAR reading and/or math. These students will retest on May 8th and 9th.. The remaining test results should arrive by the end of May.

Our campus test coordinators are to be commended for a great job in preparing, training staff, and organizing these assessments.

### **NWEA**

The spring universal screening for reading, math, and language usage utilizing NWEA MAP (Northwest Education Association Measure of Academic Progress) has begun for kindergarten-8th grade campuses. The detail-rich data from these screenings will be reviewed by campus and district personnel to monitor student growth in reading and math, evaluate instructional programs, and help plan instruction for the 2017-2018 school year.

### **DEIC**

DEIC met on May 1st for the final time this year. Committee members completed the district report card as required by the Community and Student Engagement portion of HB 5 that will be reported in June to TEA.

### **SHAC**

The School Health Advisory Committee met on THursday May 4th and finalized plans for this year's Good to Go From Head to Toe. More community outreach organizations will be invited to this year's event.
