Senior Director of Special Education Services

Re: TIENET

The Special Education Department will be purchasing a new IEP case management program called TIENET from PowerSchool. This program will replace ESped, our former IEP case management program. The TIENET program is the PowerSchool IEP program. The special education staff compared the ESped and TIENET programs this spring. The consensus from the staff was the TIENET program would best meet our IEP case management needs for reports, functionality and compatibility with PowerSchool. The cost of the program for hosting fees, IEP case management and staff training will be \$28,713. This cost is paid by IDEA grant money.
