SBOE Adopted!

Proclamation
2022

Support the Opt-In Requirements of House Bill 1525 and Senate Bill 9

Dear Health and Physical Education Teachers, Administrators, and SHAC Members,

The Texas State Board of Education has named G-W as the only approved publisher for Proclamation 2022. The G-W team is excited, proud, and ready—we want you to see first-hand why these are the *only* programs that the state has selected for adoption:

- *Texas Health Skills for Middle School* for Grades 6 and Grades 7-8
- *Texas Health Skills for High School* for Health I and II
- *Texas Fitness and Wellness Skills* for Lifetime Fitness and Wellness Pursuits
(G-W's program for High School Physical Education is also part of this adoption.)

In Texas, all materials undergo an extensive and detailed adoption review process. After listening to input from various stakeholders in the community, schools, and the Texas State Board of Education, G-W agreed to incorporate feedback from the reviews into our resources to meet your needs. In addition, G-W's programs support House Bill 1525 and Senate Bill 9 by separating Health Education materials from the "Opt-In" topics contained in the legislation, so that districts can easily provide access to Opt-In topics when a parent or guardian has provided permission. The table below provides a breakdown of the content that is currently in the process of being edited in order to be moved to the Companion Text:

G-W Companion Material to Accompany Texas Health Skills for Middle School

- Chapter 17: Puberty
- Lesson 17.1 Beginning of Life
 - Lesson 17.3 Adolescence and Puberty

Choosing G-W offers your school district the confidence and assurance of providing health and physical education content that has been vetted by the TEA State Review Panel and adopted by the Texas State Board of Education for instruction that best meets the needs of your community. **Let's work together to encourage healthy living!**

Hector Morales
G-W National Sales Director

Educating students to develop healthy behaviors today can improve their overall health and contribute to patterns of wellness that will extend into adulthood. To help guide students along the path to healthy living, G-W assembled an award-winning author team to create the most current and comprehensive middle school and high school health programs. Together, they developed a **contemporary, student-focused, research-based approach** to health education. Their expertise, combined with the **input of Texas-based teachers and professionals**, provides your students with relevant, age-appropriate resources—created especially for Texas!

For Middle School Health, Grades 6–8

Spanish resources available!
