

Weber School District
Technical Services

Memo

To: Superintendent Gina Butters, Weber School District Board of Education
From: Casey Dalpias, Assistant Technical Services Director
CC: Brock Mitchell, Dax Teuscher
Date: October 28, 2025
Re: Purchase Request

Improving student and faculty safety is a top priority for Weber School District. We currently have six schools in need of security enhancements that will significantly increase safety through the implementation of an Audio Enhancement System.

The Audio Enhancement System will equip each staff member with a safety alert button, enabling immediate notification, two-way communication, and location tracking of safety concerns to the office, thereby bringing the school into compliance with HB84. This upgrade responds to faculty feedback by strengthening on-campus safety protocols and helping staff feel more secure and supported in emergency situations. In addition to enhancing staff safety, the system will improve the overall learning environment by delivering consistent, high-quality audio through classroom audio lift technology. This ensures all students, regardless of where they sit, can hear and engage with instruction clearly. The system also upgrades school-wide communication through advanced intercom and alert capabilities, supporting both emergency response and daily operations.

To support the upgraded system, some network enhancements will also be required. The costs are as follows:

Location	Audio Enhancement Installed Price	Tech Services equipment purchase for AE install	Project Total
Fremont High	\$587,889.00	\$43,931.36	\$631,820.36
TH Bell	\$226,525.29	\$20,409.14	\$246,934.43
South Ogden Jr	\$241,053.15	\$37,229.51	\$278,282.66
West Haven	\$260,645.00	\$24,604.08	\$285,249.08
Kanesville	\$221,444.29	\$13,968.80	\$235,413.09
Freedom	\$203,078.80	\$22,615.58	\$225,694.38
		Total	\$1,903,394.00

At this time, I am requesting board approval for \$1,903,394.00 to complete this phase of six schools.

Thank you for your consideration. As always, I appreciate your continued support of safety and technology in the district. If I can provide you with further clarification or answers to questions, please contact me at 801-476-7960.

Thank you.

Casey Dalpias
Assistant Director of Technology
