

Contracts for Students Tuitioned In and Out 2020

Background:

Special education students, when served by a school other than their resident school district, must be contracted with the service provider.

Under Iowa law, only a school board can obligate the school district to a contract; however, confidentiality laws do not permit the public disclosure of those students who are in a special education program. Consequently, school boards are asked to annually approve the special education service providers.

The list below is of schools that are sending special education students to the Belmond-Klemme district for services (tuitioned IN).

- CAL
- Clarion-G-D
- Clear Lake
- Creston
- Garner-H-V
- Louisa Muscatine
- West Fork (6)

Next, the following is a list of schools currently providing special education services to Belmond-Klemme students (tuitioned OUT).

- CAL
- Clarion-G-D
- Fort Dodge
- Garner-H-V (8)
- Johnston
- Woodward-Granger

Recommended Action:

I recommend the board approve contracts with the school districts listed above.
