

Napi Elementary Board Report March 2018

The weather in February wasn't very cooperative in terms of getting our students and staff to school, however the days we were in session, both made sure meaningful teaching and learning happened! I applaud our teachers, students, and parents for the tremendous efforts it took most to get to school and work in February!

As a result of only having 13 days in February, both ISIP and STAR data for February was not 100% complete. Even when school was in session, many of our students were unable to attend due to continued road closures and cancelled bus routes. The weather forecast for March is looking very calm and with temperatures in the 20s and 30s, which will ensure assessment completion is closer to 100%.

Math consultant Mary Buck worked with the interventionist and the coaches on February 21st. Together, we refined and improved our intervention tool for math fluency, looked at data, and planned next steps. Ms. Buck provided professional development to our specialists and our TAs who work with students in math classes, then pull to provide math intervention in fluency. She provided the same instruction and PD offered to those who attended the SSG Conference in Bozeman. Mary also provided the Wednesday PD to staff in regards to math fluency, assessment, and SBAC tips.

February Activities:

5th-----I Love To Read Challenge started! Students completed book reports to earn points for their classes. The challenge ended with the following grade level winners being announced: 4th Grade---Mr. Berthelson & Ms. Sangray; 5th--Ms. Bremner & Ms. Switzer; and 6th---Ms. Momberg. These classes will be treated to a party of their choice.
