

TO: Alpena County Courts & Public Safety Committee
CC: City Manager Smolinski, County Administrator Osmer
FROM: Chief Andy Marceau
SUBJECT: Ambulance Service Update
DATE: January 16, 2026

EMS Operations – Year Ending December 31, 2025

The Alpena Fire Department provided emergency medical services throughout 2025 with a consistently high demand for care across the City of Alpena and surrounding service areas. This summary highlights key operational metrics and trends based on documented EMS response data for the year ending December 31, 2025.

Overall Call Volume

- **Total EMS responses:** 5,089
- **Average daily EMS calls:** 13.9 calls per day
- **Emergency responses:** 98.9% of all EMS runs
- **Patient contact made:** 87.9% of incidents

This data reflects a steady and sustained workload requiring continuous EMS availability and staffing.

Patient Care & Transport

- **Patients treated and transported:** 3,592 (70.6%)
- **Patients evaluated and care provided:** 77.5%
- **Primary transports by AFD units:** 70.2%

The majority of EMS calls required full evaluation, treatment, and transport to an emergency department, demonstrating the essential role of ALS-level care in the community.

*Provider of Fire, Rescue and Emergency Services for the City of Alpena
and Advanced Life Support Ambulance for Alpena County*

Non-Transport & Alternate Outcomes

- **Non-transport outcomes:** 1,143 calls (25.1%), including:
 - Refusals of care
 - Treat-no-transport per protocol
 - Canceled responses
 - Patient assists

These calls still required personnel response, on-scene evaluation, documentation, and system readiness, contributing to overall workload despite no hospital transport.

Service Area & Destination Trends

- The City of Alpena accounted for the majority of EMS responses, with additional service provided to surrounding townships.
- 100.0% of transported patients were taken to MyMichigan Medical Center – Alpena, reinforcing its role as the primary receiving facility.

Clinical Demand Indicators

High-frequency call categories included:

- Sick person/weakness
- Falls and trauma
- Respiratory distress
- Chest pain and cardiac-related symptoms

These trends align with an aging population and increasing medical complexity within the service area.

Summary

In 2025, the Alpena Fire Department EMS system managed a high volume of emergency medical calls, with more than two-thirds requiring treatment and transport. The data supports continued emphasis on staffing stability, ALS capability, training, and system readiness to meet current and future EMS demand.
