

Community Education School Board Positive Happening

Drivers Education

Bill Loushine, Coordinator

Leave the
driving
(education)
to us.

We believe in guiding students to become safe, responsible drivers in our community and beyond. Our instructors hold Minnesota State Teacher Licenses in Secondary Education which sets us apart from other programs. We offer many schedule options to meet the individual needs of our students.

Driver Education is divided into two parts: classroom (30 hours) and behind-the-wheel (6 hours). A bundled program (registration is for classroom and behind-the-wheel) is offered by Community Education.

- Flexible Schedule
- Low Cost
- Progressive, up-to-date program
- Complete driver education instruction: Classroom and Behind-the-Wheel
- Offered year-round

Driving is an important life skill.

Our goal is to give the community's youth the best possible training.

Our instructors have over 50 years of combined experience!
