

Proposed Changes

Beginning in 2019-20 teachers can continue with the current SLO process, or they may use MAP as a Type I and Type III assessment. Teachers will be required to do 1 MAP test for math and 1 MAP test for reading each year. Fall will be the pre test, and spring will be used as the post test. For a 1st year teacher, they will use fall for pre test and winter for the post test.

Teachers can choose to do the following:

1. 1 Class
2. All of their classes
3. Grade Level

For MAP, the following chart will be used to calculate growth score:

Performance Rating	Thresholds
Unsatisfactory	Less than 50% of students show growth
Needs Improvement	50%-64% of students show growth
Proficient	65%-79% students show growth
Excellent	80% of students show growth

Please note this is students showing growth, not meeting a target. For example, 211 in fall and 212 in spring is growth.

Portfolios

There will be a limit of 2 pieces of evidence for each standard.
