

## Textbook Adoption Summary

February 12, 2024

The process for textbook adoption for K-12 Science, CTE and Tech Apps is underway and has been completed at the committee level. Selection committee members have evaluated all of the teacher and student materials carefully and thoroughly. Members attended in-district presentations from publishing companies and evaluated all materials. They spent many hours independently reviewing the materials with their campus colleagues. Materials have also been available for preview to anyone interested in reviewing them on each campus. The Temple ISD Textbook Adoption Committee was charged with the responsibility of screening, evaluating, and recommending materials for adoption to the Board of Trustees. Committee members and the Textbook Committee Timeline were presented to the Board and approved on October 10, 2023.

The Committee recommends the following Instructional Materials for board approval:

<i>K-5 Science</i>	<i>Houghton Mifflin Harcourt</i>
<i>6-8 Science</i>	<i>SAVVAS</i>
<i>9-12 Science</i>	<i>McGraw Hill</i>
<i>Tech Apps</i>	<i>ICEV</i>
