Subject: Consider Approval of 2023 Bond Second-Sale Cyber Security Upgrades (Cyber Security Suite) – Cooperative Contract(s) (SB07)

Background Information:

- Intent is to renew a suite of cybersecurity products, which includes a network access control system, a web-based Domain Name Service (DNS) and application filter, network security analytics, a multi-factor authentication system, a secure email system, and three years of related licensing, maintenance, and support. This topic was previously discussed at the October 6, 2025, Board of Trustees work session.
- As part of the 2017 Bond, the Technology Department implemented a suite of cybersecurity products and services. To meet District needs, a renewal of the licensing and maintenance for these systems is needed to ensure continued functionality. These cybersecurity systems are critical for District operations as the education sector is a highly targeted industry for cybersecurity attacks.
- The Technology Department worked with the Procurement Department to solicit cooperative quotes from multiple vendors and received three responses. Additional cybersecurity-related recommendations may be brought forth for consideration at a future Board of Trustees meeting.
- This recommendation includes renewing the District's cybersecurity suite for a five-year term, securing fixed pricing for the duration of that period. The Technology Department recommends funding the initial three years upon approval and returning to the Board for approval of funding for the optional fourth and fifth years.

Administrative Consideration:

- If approved, funds will come from 2023 Technology Bond Funds.
- Estimated expenditures: \$2,415,594 for a three-year period but will not exceed the approved budgets, \$805,198 annually.
 - Estimated total expenditures for years four and five to be paid annually starting in 2029 using 2023 Technology Bond Funds for \$1,610,396 (to be brought back for Board approval).
 - Year four: \$805,198
 - Year five: \$805,198
- This procurement complies with Section 44.031 of the Texas Education Code and applicable state, local, and federal procurement laws.

Recommendations:

- Lewisville ISD Board of Trustees to approve the estimated expenditures for the 2023 Bond Second-Sale Cyber Security Upgrades (Cyber Security Suite), utilizing Lewisville ISD-eligible cooperative contract(s) for three years with the associated vendor(s).

Timeline/Report:

- Term: January 2026 – January 2029
