FOR ACTION

Subject: Approval of Code Compliant HVAC Commissioning Consultant

In an update in the January 29 and February 5 Thursday Letters, I mentioned the need to include a commissioning consultant to provide oversight on the installation of HVAC systems contained within the construction projects. This was shared by DLA Architects, who have included the attached recommendation letter that explains the process. It is my recommendation to approve Alpha Commissioning Engineers, Inc. to provide this service after a review by DLA of four proposals made by similar service providers and the costs mentioned in the recommendation letter.

Recommendation: The Board of Education approve Alpha Commissioning Engineers, Inc. as HVAC consultants for the construction projects, as presented.
