Re: Purchase of Thermal Monitoring and Control Systems

I would like an opportunity to share with the Board of Education the recommendation to purchase 63 Thermal Monitoring and Control Systems. The total cost of these devices is \$37,485.00. They would be purchased from Global Office Solutions, using the cooperative purchasing program pricing from the Michigan Association of Counties/Collaborative Procurement + more (MAC/CoPro+).

These thermal monitoring systems quickly measure body temperatures via the wrist and are completely touchless. The intention is to use these devices at the entry points of all buildings, including Central Office, to measure the daily temperatures of District employees.

Please add this request to the agenda of the Monday, September 21, 2020 Committee of the Whole meeting. Thank you.
