

ALEDO ISD BOARD MEETING TEMPLATE

MEETING DATE: March 28, 2022

AGENDA ITEM: Consider Approval of Purchase of Portable High-Efficiency Particulate Air Fan/Filtration Systems with COVID-19 School Health Support Grant

PRESENTER: Earl Husfeld, Chief Financial Officer

BACKGROUND INFORMATION:

- Per Board Policy CH (Local), any single, budgeted purchase of goods or services that costs \$50,000 or more, regardless of whether the goods or services are competitively purchased, shall require Board approval before a transaction may take place.
- As I shared with you during the March 21, 2022 board meeting, the District received a notice of grant award on March 4, 2022 for the 2021-2022 COVID-19 School Health Support Grant.
- The grant amount awarded to the District was \$259,229, with the grant period ending March 31, 2022.
- Many of the expenditure items that may be included in this grant will be a re-classification from the General Fund to this grant fund. However, approximately \$145,000 was awarded for “portable high-efficiency particulate air (HEPA) fan/filtration systems or other small items that may allow for improved air circulation”.
- This \$145,000 funding amount is not sufficient enough to impact the indoor air circulation in every area of the District. However, the goal is to impact as many areas as possible with the flexibility to address varying situations throughout the District. These units will help eliminate unwanted dust particles, germs, and containments.
- This recommendation includes a combination of portable devices as well as devices mounted directly in the air supply of HVAC systems in the District.
- To ensure the best pricing and value, the District utilized the TIPS purchasing cooperative to obtain this quote.

FISCAL INFORMATION:

The \$141,002 cost of this purchase will be paid from the COVID-19 School Health Support Grant.
