Hello Everyone,

We are just 8 weeks away from our final fitnessgram testing date. Final testing date is the week of **March 5th through March 9**. This should be our final testing for the year. If you tested in the fall this testing period should be for those that missed the first testing and for any new students.

Remember the **new laws** re-guarding those to be tested.

All testing for 3 grade students through 12th that fall into the following categories:

1. All students enrolled in a physical education class
2. All athletes
3. All band members
4. All cheerleaders

Data can be entered in fitnessgram at this time. You will need to use the user name and password that we used last year. When entering data please let me know if students are missing from your list and students that need to be deleted from your list, I can take care of this issue. Final date for data to be entered is **April 20th**. Data for Cactus can not be entered at this time. I will let those people know when their data can be entered.

Please make plans accordingly. I appreciate all your hard work. If you have questions you can always call and I will help you.

Thanks for your help,

Flair
