

## **TRANSPORTATION BOARD REPORT FOR MAY 2023**

**SUBMITTED BY: WAYNE BULL CALF**

**Hi all, this is my report for the BPS transportation department, For the month of May, the mechanic department did 43 work orders, the big work order was installing a fuel pump bus #5, we purchased 6 new vehicles for district. We are also ordering a motor for our Blackfoot bus so I can have it back by next school year.**

**We sent in our 2nd semester bus reimbursement to OPI; the office has been busy with end of the year billing and getting ready for the county board meeting in June.**

**So, the trip personal had 84 trips with sports, field trips, and college visits, we were sure thankful for the wellness day we got on Monday May 15<sup>th</sup>, so a big shout out to the committee responsible for this great day.**

**As for the disciplinary department we had quite the slow down, there were only 10 write ups with one removal, thanks to the treasure box every Friday it made quite the difference with bus behavior.**

**Just a thought, all drivers have been asking if the district can pay their DOT physicals since it is a job requirement, very few get 2 years, most get only one year, the cost is \$140. This physical must be done by a certified doctor that is state approved to do DOT physicals.**
