Re: Board Report  
Date November 12, 2025

---

### **Staffing**

We currently have two new drivers in training. Recruitment efforts continue as we work to maintain full route coverage and provide reliable transportation for all students.

### **Fleet**

In addition to supporting daily transportation needs for Chelsea, we are now providing maintenance and service work for buses from other districts. This expansion reflects the strong reputation of our transportation team and contributes positively to our department's operations.

### **Operations**

We are experiencing significant success with the new digital radio system. Communication has greatly improved, and we are now able to stay in contact with buses at the farthest points of our district and in some cases even beyond those points. This has already proven beneficial for both efficiency and safety.

### **Staff Training**

Fire drills were completed during National School Bus Safety Week across all buildings, and drivers and students performed well.

### **Appreciation**

We are looking forward to the Bus Driver and Crossing Guard Appreciation Breakfast hosted by the PTO on November 20th. We are grateful for the community support shown to our transportation staff.
