

## Parent & Community Outreach Program March 2017

### Child Care –

Child Care has enrolled a few more infants into the program. Three teen parents have enrolled and utilizing the center. Two of the students from the Academy and one from the main high school. Two children have transitioned into the 3 & 4 year old classroom. Two students have dropped out of the 3 & 4 year old program. Each classroom is still continuing to work teaching the alphabet, counting, shapes, days of the week, and months.

### Families in Transition –

We finally have a homeless advocate contracted to work half a day!! We welcome JoRae Rattler and she has hit the ground running. I am so happy she is on board and able to reach out to some of the students that need help. She has started reaching out to other agencies and helping identify some of the teen students that have not been identified prior to her becoming enrolled.

### HiSet –

We have moved the HiSet classroom, Parent Outreach Program and FIT office into the Annex. We are currently very busy trying to get set up, organized and still serving students. We look forward to our new home and not being homeless any longer!! After an entire year of not having a work space it is nice to have a place to work from.
